

MATHECRAFT

Mr. Martin has bought a new house. He wants your help designing his backyard.

Procedure:

1) Build a fence around a plot that has a perimeter of 40m by 60m. This is the backyard of Mr. Martin.

2) His daughter loves to swim, build a pool in his backyard which is surrounded by patio stones. * Think of the capacity of the pool as you build *.

3) Mr. Martin wants a wood deck and a barbecue.

4) Mr. Martin loves flowers, build a garden.

5) When you have finished all the above, you can build another element (eg, a shed, a pool, a barn, etc. ..) for his backyard.
